

## Faculty Review of Open eTextbooks

The [California Open Educational Resources Council](http://www.cool4ed.org) has designed and implemented a faculty review process of the free and open etextbooks showcased within the California Open Online Library for Education ([www.cool4ed.org](http://www.cool4ed.org)). Faculty from the California Community Colleges, the California State University, and the University of California were invited to review the selected free and open etextboks using a rubric. Faculty received a stipend for their efforts and funding was provided by the State of California, the William and Flora Hewlett Foundation, and the Bill and Melinda Gates Foundation.

- Chapter (and I use the word loosely) wording ranges from a minimal undergrad level to general language/high school level. This is meant more for a casual reader who desires little in the way of detail. There are links for additional information on the left side of the screen; the detail there is only marginally better. There are no additions for texts, activities, graphics, etc.
