

## Faculty Review of Open eTextbooks

The [California Open Educational Resources Council](http://www.cool4ed.org) has designed and implemented a faculty review process of the free and open etextbooks showcased within the California Open Online Library for Education ([www.cool4ed.org](http://www.cool4ed.org)). Faculty from the California Community Colleges, the California State University, and the University of California were invited to review the selected free and open etextbooks using a rubric. Faculty received a stipend for their efforts and funding was provided by the State of California, the William and Flora Hewlett Foundation, and the Bill and Melinda Gates Foundation.

## Overall Comments

If you were to recommend this textbook to colleagues, what merits of the textbook would you highlight?

- The writing style is student-friendly and engaging.

What areas of this textbook require improvement in order for it to be used in your courses?

- Chapter 17 needs further updating. The survey noted in this Chapter was conducted in August 2010. Based on ongoing macroeconomic conditions, monetary policy and globalization, traditional models need to be reconciled more explicitly with current realities. An overall "update" appears in order.
